**Guidance on Use of Comprehensive Accountable Entities Measure Sets**

The Executive Office of Health and Human Services (EOHHS) is issuing guidance related to the implementation of Comprehensive Accountable Entities (AEs) Measure Sets.

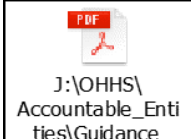

EOHHS has developed Measure Sets for Comprehensive Accountable Entities (AEs) contracts. The Excel document titled “Comprehensive AE Measures” has been developed to help assist Accountable Entities by providing information on the required measure. This document includes a few notable features including information about the measures and links to specifications for each measure.

An Accountable Entity may petition EOHHS to modify or waive one or more of the requirements for a measure. Any request to modify or waive one or more of the requirements must articulate a clear rationale supporting the modification/waiver request and must demonstrate how the AE’s request will advance the quality, accessibility, and/or affordability of health care services in Rhode Island.
