

AE Incentive Framework Feedback  
9-18-17

Blackstone Valley Community Health Care's questions and observations on the Incentive Framework are as follows:

**3. Accountable Entity Incentive Pool**

NHPRI currently pays a \$4.00 pmpm incentive payment. Will this payment continue once the HSTP payment pmpm begins?

**C. Required Performance Areas and Milestones**

Further definition of the Outcome Metrics and insuring that the AE has access to the data to report on it should be a requirement before sending to CMS. All AE's should have the ability to access this data on a monthly basis to use in benchmarking progress towards the measure.
