Limitations

12.a Prescribed Drugs

Pursuant to 42 U.S.C. section 1396r-8 the state is establishing a preferred drug list with prior authorization for drugs not included on the preferred drug list. Reimbursement is available for covered outpatient drugs of any manufacturer that has entered into and complied with an agreement under Section 1927(a) of Title XIX of the Social Security Act, which are prescribed for a medically accepted indication. Drugs subject to limitations are those outlined under Section 1927(d)(4) of Title XIX of the Social Security Act.

The state is in compliance with reporting requirements for utilization and restrictions to coverage. Pharmaceutical manufacturers can audit utilization data. The unit rebate amount is confidential and cannot be disclosed for purposes other than rebate invoicing and verification, in accordance with Section 1927(b)(3)(D) of the Social Security Act.

The state will negotiating supplemental rebates in the Medicaid program in addition to the Federal rebates provided for in Title XIX. Rebate agreements between the state and pharmaceutical manufacturer(s) will be separate from the Federal rebates.

CMS has authorized the State of Rhode Island to enter into the Michigan multi-state pooling agreement (MMSPA) also, referred to as the National Medicaid Pooling Initiative (NMPI) for drugs provided to the Medicaid program. The Supplemental Drug Rebate Agreement was submitted to the Centers for Medicare and Medicaid Services (CMS) on March 29, 2007 and has been reviewed and authorized by CMS. An update to the Supplemental Drug Rebate Agreement was submitted to CMS for approval in September 2013. Any additional versions of rebate agreements negotiated between the state and manufacturer(s) will be submitted to CMS for authorization. Any contracts or agreements with pharmaceutical manufacturers not approved by CMS will be submitted for CMS.

Supplemental rebates received by the State in excess of those required under the National Drug Rebate Agreement will be shared with the Federal government on the same percentage basis as applied under the national rebate agreement.

All drugs covered by the program irrespective of a prior authorization requirement will comply with the provisions of the national drug rebate agreement.

Limitations

The Department will maintain a list of drugs to be referred to as the Preferred Drug List (PDL). The PDL is a listing of prescription drugs that the Department has determined represents the most effective drug(s) at the best possible price for the selected drug class. The PDL is developed by a Deputy Director-appointed Pharmaceutical and Therapeutic committee in accordance with Federal and State law and shall be comprised of practicing pharmacists and physicians, faculty members from the University of Rhode Island College of Pharmacy and consumers or consumer representatives in conjunction with the department.

Practitioners may prescribe and get approval for non-preferred drugs if in their reasonable and professional judgment switching to a drug on the PDL will cause harm to their patient.

The State utilizes Coventry Health Care Company to design and maintain the PDL and supplemental rebate programs. Prior authorization will be established for certain drug classes, particular drugs, or medically accepted indication for uses and doses. Prior authorizations for non-preferred drugs can be obtained by contacting the state's fiscal agent or its subcontractors. The prior authorization process provides for a turn-around response by either telephone or other telecommunications device. Responses are issued within 24 hours of the request. Pharmacies are authorized to dispense a 72 hour supply of a non-preferred drug in the event of an emergency. The program complies with the requirements set forth in Section 1927(d)(5) of the Social Security Act pertaining to prior authorization programs. Rhode Island does not foresee any impact to its prior authorization program in the event that supplemental rebates are not provided to other state(s) participating in the agreement.

3.20 'State Utilization Data' means the data used by Participating States to reimburse pharmacy providers under Participating States' Medicaid Program (and other non-Medicaid programs approved by CMS in the state plan(s) as provided in Section 2.1 hereof). State Utilization Data excludes data from covered entities identified in Title 42 U.S.C. §256b(a)(4) in accordance with Title 42 V.S.C. §256b(a)(5)(A) and 1396r-8(a)(S)(C).

3.21 'Supplemental Covered Product' means the pharmaceutical product(s) of the Manufacturer, as detailed in the attached Supplemental Rebate Matrix, Schedule 2, upon which a State Supplemental Rebate will be paid pursuant to this Agreement.

3.22 'Supplemental Covered Product Category' or 'Product Category' means a defined group of pharmaceutical products considered to compete with one another in the market and that are also thought to be therapeutic alternatives in many situations. First Health Services has determined and defined the Product Categories in which manufacturers will bid. The Product Categories, set forth on the "Product Categories, Schedule I" hereto, may be changed as deemed appropriate by Participating States.

3.23 'Supplemental Rebate Amount' means, with respect to the Supplemental Covered Product(s), the amount(s) specified in the attached Supplemental Bid Matrix, Schedule 2 and Supplemental Rebate Calculation, Schedule 3 that the Manufacturer has agreed to reimburse Participating States per unit of drug in accordance with the formula detailed in the above Schedules.

3.24 'Wholesale Acquisition Cost' or 'WAC' means the Manufacturer's U.S. Dollar wholesale acquisition price in effect on the last day of a quarter on a unit basis as published by a third party source, such as First Databank, for each product and represents the Manufacturer's published price for a drug product to wholesalers.

MANUFACTURER'S RESPONSIBILITIES

4.1 Manufacturer will calculate and provide each Participating State a CMS Rebate for the Covered Product(s), which includes the CMS Basic Rebate and CMS CPI Rebate, as appropriate. The CMS Rebate represents the discount obtained by multiplying the units of the Covered Product(s) reimbursed by each Participating State in the preceding quarter by the per unit rebate amount provided to each Participating State by CMS. CMS will calculate the CMS Rebate amount in accordance with Manufacturer's CMS Agreement. Manufacturer's obligation for CMS Rebates will continue for the duration of the Manufacturer's CMS Agreement.

4.2 In addition to the CMS Rebates described in Section 4.1 of this Agreement, Manufacturer will remit to each Participating State a State Supplemental Rebate for the Supplemental Covered Product(s) that are in each Participating States Preferred Drug List Program. The State Supplemental Rebates will be calculated on a calendar quarter basis and provided via invoices to the Manufacturer's CMS financial contact. The State Supplemental Rebates for the quarter will be determined by multiplying the number of units of the Supplemental Covered Product(s) reimbursed by each Participating State in the preceding quarter by its Supplemental Rebate Amount. The Manufacturer's obligation for State Supplemental Rebates will continue for the duration of this Agreement. The Supplemental Rebate calculation is described in "Supplemental Rebate Calculation, Schedule 3".

4.3 The Manufacturer's obligation for State Supplemental Rebates will begin with the Rebate Billing Period for the second calendar quarter 2006, which begins April 1, 2006 (even if this Agreement is not fully executed by such date) and will continue through the Rebate Billing Period that ends March 31, 2009, subject to each Participating States' actual Participation Commencement Date as described in Section 3.16, *supra*. Notwithstanding the above, the Participating States reserve the right to solicit

annually more favorable State Supplemental Rebates from Manufacturer by giving written notice thereof no less than ninety (90) days prior to the yearly anniversary of the effective date of this Agreement.

4.4 The quarters to be used for calculating the Rebates in Section 4.2 of this Agreement will be those ending on March 31, June 30, September 30, and December 31 of each calendar year during the term of this Agreement.

4.5 The participating Manufacturer will be required to submit each Participating State's State Supplemental Rebate payment within 38 days of the Manufacturer's receipt of the Participating State's Rebate Summary.

4.6 Manufacturer will pay the State Supplemental Rebates, including any applicable interest in accordance with Section 1903 (d)(5) of the Act. Interest on the Rebates payable under Section 4.2 of this Agreement begins accruing 38 calendar days from the postmark date of each Participating State's invoice and supporting Rebate Summary sent to the Manufacturer and interest will continue to accrue until the postmark date of the Manufacturer's payment. For the rebate programs invoiced under this Agreement, if the date of mailing of a Rebate payable under Section 4.2 of this Agreement is 69 days or more from the date of mailing of the invoice, the interest rate will be calculated as required under federal guidelines for rebates described in Section 4.1 but will be increased by ten percentage points or the maximum allowed by that Participating State's state law. If a Participating State has not received the Rebates payable under Section 4.2 of this Agreement, including interest, within 180 days of the postmark date of said Participating State's invoice and supporting Rebate Summary sent to the Manufacturer, such Participating State may deem the Manufacturer to be in default and Participating State may terminate its participation in this Agreement by giving Manufacturer and First Health ninety (90) days advance written notice.

4.7 Manufacturer agrees to continue to pay State Supplemental Rebates on the Supplemental Covered Product(s) for as long as this Agreement or any of its Addenda are in force, and State Utilization Data shows that payment was made for that drug, regardless of whether the Manufacturer continues to market that drug. Manufacturer's obligation to pay State Supplemental Rebates on the Supplemental Covered Product(s) shall terminate twelve (12) months following the last expiration date of the last lot of Supplemental Covered Product sold by the Manufacturer, Notwithstanding the above, in the event Manufacturer's Supplemental Covered Product(s) is/are sold to another manufacturer, the original Manufacturer shall have no liability for rebates on utilization beyond those required by the Medicaid

program. Manufacturer shall provide the State and First Health with notice of the sale of said Supplemental Covered Product(s) concurrent with Manufacturer's notice to CMS.

4.8 Unless notified otherwise, Manufacturer will send Rebate payments by certified mail, return receipt requested, to the address provided to Manufacturer in each individual Participating State's Addendum.

PARTICIPATING STATE(S)' RESPONSIBILITIES

5.1 Each Participating State will consider the Manufacturer's Supplemental Covered Product(s) for inclusion in the Participating State's Preferred Drug List Program. Each individual Participating State reserves the right to select the products that will be in its Preferred Drug List Program and will only receive State Supplemental Rebates for Manufacturer's Supplemental Covered Products that are actually included in its Preferred Drug List Program. Manufacturer shall pay Participating States State Supplemental Rebates based upon Participating State(s)' utilization of Manufacturer's Supplemental Covered Product(s) that did not require prior authorization. Participating States shall not be entitled to State Supplemental Rebates for utilization of Manufacturer's Supplemental Covered Product(s) that occurred only subsequent to the obtaining of prior authorization unless the Supplemental Covered Product(s) have been assigned to a Product Category and all products in the Product Category are subject to prior authorization requirements. Each individual Participating State also reserves the right to determine, as a result of a Product Category review, that prior authorization is required for all preferred drugs in a Product Category. If a Participating State determines that prior authorization is required for any Supplemental Covered Product, then the Participating State will comply with all provisions of Section 1927(d) of the Social Security Act applicable to Prior Authorization programs. Each Participating State will notify Manufacturer and First Health, within ten (10) business days of adoption and publication of a new or revised Preferred Drug List, when Manufacturer's Supplemental Covered Product is added to the Participating State's Preferred Drug List by providing Manufacturer and First Health a copy of the Preferred Drug List in accordance with the notice provisions of Section 9.2 hereof.

5.2 The State and/or First Health shall notify the Manufacturer whenever a Participating State adds one of Manufacturer's Supplemental Covered Products to its Preferred Drug List or when one of Manufacturer's Supplemental Covered Products is moved to a prior authorization status.

5.3 Each Participating State will provide aggregate State Utilization Data to the Manufacturer on a quarterly basis. This data will be based on paid claims data (data used to reimburse pharmacy providers)

under each Participating State's Medicaid (and other state funded, HHS approved) Program(s), will be consistent with any applicable Federal or State guidelines, regulations and standards for such data, and will be the basis for the Participating State's calculation of the State Supplemental Rebate.

5.4 Each Participating State will maintain those data systems used to calculate the State Supplemental Rebates. In the event material discrepancies are discovered, the Participating State will promptly justify its data or make an appropriate adjustment, which may include a credit as to the amount of the State Supplemental Rebates, or a refund to Manufacturer as the parties may agree.

5.5 Each Participating State shall maintain electronic claims records for the most recent four quarters that will permit Manufacturer to verify through an audit process the Rebate Summaries provided by the Participating State.

5.6 Upon implementation of this Agreement, and from time to time thereafter, Participating States and Manufacturer will meet to discuss any data or data system improvements which are necessary or desirable to ensure that the data and any information provided by the Participating States to Manufacturer are adequate for the purposes of this Agreement.

5.7 First Health, as the pharmacy benefit administrator, may assist the Participating States in fulfilling its responsibilities hereunder and is a party to this Agreement solely in its capacity as agent for, and subject to the supervision and oversight of, the Participating State(s).

5.8 The State and each Participating State shall obtain CMS approval of its state Medicaid plan of which this Agreement forms a part. Manufacturer shall not be obligated to remit any Supplemental Rebates that have accrued and are due under this Agreement until after the affected State or Participating State has obtained CMS approval of its Supplemental Rebate Program of which this Agreement forms a part.

DISPUTE RESOLUTION

6.1 In the event that in any quarter a discrepancy in a Participating State's State Utilization Data is questioned by the Manufacturer, which the Manufacturer and the Participating State in good faith are unable to resolve, the Manufacturer will provide written notice of the discrepancy to the Participating State and First Health.

6.2 If the Manufacturer in good faith believes the Participating State's State Utilization Data is erroneous, the Manufacturer shall pay the Participating State that portion of the rebate claimed, that is not in dispute by the required date. The balance in dispute, if any, will be paid by the Manufacturer to the Participating State by the due date of the next quarterly payment after resolution of the dispute.

6.3 The Participating State and the Manufacturer will use their best efforts to resolve the discrepancy within 60 days of receipt of written notification. Should additional information be required to resolve disputes, the Participating State and First Health will cooperate with the Manufacturer in obtaining the additional information.

6.4 In the event that the Participating State and the Manufacturer are not able to resolve a discrepancy regarding State Utilization Data as provided for in Sections 6.1 through 6.3, the Manufacturer may request a reconsideration of the Participating State's determination within 90 days after the end of the 60 day period identified in Section 6.3. The Manufacturer shall submit with its written request its argument in writing, along with any other materials, supporting its position to the Participating State and First Health. The Participating State shall review the written argument and materials and issue a decision in the matter.

CONFIDENTIALITY PROVISIONS

7.1 The parties agree that confidential information will not be released to any person or entity not a party to this contract. Confidential information, including trade secrets, will not be disclosed, or used except in connection with this Agreement or as may be required by law or judicial order.

7.2 The Manufacturer will hold Participating State' State Utilization Data confidential. If the Manufacturer audits this information or receives further information on such data from First Health or a Participating State, that information shall also be held confidential. The Manufacturer shall have the right to disclose Participating State(s)'s State Utilization Data to auditors who agree to keep such information confidential.

7.3 Pursuant to 42 USC 1396r-8(b)(3)(D), and other applicable state or federal laws, the parties agree that this Agreement and all information provided pursuant to this Agreement will not be disclosed and that the parties will not duplicate or use the information, except in connection with this Agreement or as may be required by law or judicial order. The parties further agree that any information provided by

Manufacturer to the State, First Health, or the Participating State(s) pursuant to this Agreement and this Agreement itself constitute trade secrets and/or confidential or proprietary commercial and financial information not subject to public disclosure. Furthermore, the parties agree that any Manufacturer information received by First Health pursuant to this Agreement and distributed by First Health to the State and/or Participating States shall constitute trade secrets and/or confidential or proprietary commercial and financial information of the Manufacturer not subject to public disclosure, except as otherwise provided for herein. If the services of a third party are used to administer any portion of this Agreement, Sections 7.1 through 7.4 or this Agreement shall apply to the third party. In the event a Participating State cannot give satisfactory assurance that rebate pricing data provided under this Agreement will be exempt from public disclosure under applicable state law, then First Health (without assuming responsibility for any wrongful disclosure by a Participating State) shall limit the amount of such data made available to the Participating State by not disclosing to the Participating State any NDC level pricing information. For purposes hereof "satisfactory assurance" shall be deemed given when the Participating State enters the statutory cite of the applicable exemption on its Participating State Addendum. In the event that either party is required by law to disclose any provision of this Agreement or pricing information to any person, such party shall provide advance written notice to the other party sufficiently in advance of the proposed disclosure to allow the other party to seek a protective order or other relief.

7.4 Notwithstanding the non-renewal or termination of this Supplemental Rebate Agreement for any reason, these confidentiality provisions will remain in full force and effect.

NON-RENEWAL or TERMINATION

8.1 This Agreement shall be effective as of April 1, 2006 and shall have the term indicated in Section 4.3. *supra*.

8.2 Any Participating State may terminate its participation in this Agreement by giving Manufacturer and First Health written notice at least (90) days prior to the anniversary date of this Agreement, in which case termination shall become effective on the anniversary date of the date of execution of this Agreement. The termination of this Agreement by one or more Participating States shall not affect the Manufacturer's, First Health's or the other Participating States' obligations under this Agreement, other than any effect the reduction in the number of lives covered by the Agreement may have on the Supplemental Rebate payable hereunder. Manufacturer may terminate this Agreement and all Addenda by

giving all Participating States and First Health written notice at least ninety (90) days prior to the anniversary date of this Agreement, in which case termination shall become effective on the anniversary date of the date of execution of this Agreement. Manufacturer's right of termination is limited to the right to terminate the entire Agreement. Manufacturer may not terminate specific Addendum/Addenda of less than all Participating State(s).

8.3 Termination by a FH Client of its PBA Services Agreement with First Health shall, as of the same termination effective date, terminate this Agreement as to that Participating State.

8.4 Notwithstanding any non-renewal or termination of this Agreement, State Supplemental Rebates will still be due and payable from the Manufacturer under Section 4.2 for any Supplemental Covered Products for which Participating State(s)' obligation to reimburse arose prior to the effective date of termination of this Agreement.

8.5 On at least an annual basis or as mutually agreed upon by Manufacturer and First Health, Manufacturer shall have the opportunity to decrease the Net Price of its Covered Products to increase the likelihood of product(s) utilization and/or inclusion in the Participating States Preferred Drug List Programs.

GENERAL PROVISIONS

9.1 This Agreement will be governed and construed in accordance with 42 U.S.C. § 1396r-8 and all other applicable federal and state law and regulations.

9.2 Any notice required to be given pursuant to the terms and provisions of this Agreement will be in writing and will be sent by certified mail, return receipt requested. Notice will be mailed to the addressees specified in each individual Participating State's Addendum to this Agreement.

Notice to the State shall be sent to:

Designee, Frank Spinelli, Associate Director Rhode Island Department of Human Services

600 New London Avenue

Cranston, RI 02920

Notice to First Health shall be sent to:

First Health Services Corporation
Attn: James McGarry, President
With a copy to: Legal Department
4300 Cox Road
Glen Allen, Virginia 23060

Notice to Manufacturer will be sent to:

9.3 The Manufacturer agrees to be bound by the laws of the United States of America and with respect to each Participating State, the law of that Participating State. Proper venue in any legal action shall be the venue of the Participating State that is party to the proceeding. Any action brought by Manufacturer must be brought separately against individual Participating States or First Health, unless all affected Participating States and First Health consent to joinder of the actions.

9.4 Nothing herein shall be construed or interpreted as limiting or otherwise affecting First Health or Participating State(s) ability to pursue its rights arising out of the terms and conditions of the Agreement in the event that a dispute between the parties is not otherwise resolved.

9.5 Manufacturer and the agents and employees of Manufacturer in the performance of this Agreement, will act in an independent capacity and not as officers, employees or agents of First Health or any Participating State.

9.6 Manufacturer may not assign this Agreement, either in whole or in part, without the written consent of the Participating States and First Health. However, in the event of a transfer in ownership of the Manufacturer, the Agreement is automatically assigned to the new owner subject to the conditions in this Agreement. If the Agreement is assigned pursuant to this Section, Manufacturer shall provide First Health and the Participating States with an update of the information contained in Section 9.2, supra

9.7 Nothing in this Agreement will be construed so as to require the commission of any act contrary to law. If any provision of this Agreement is found to be invalid or illegal by a court of law, or inconsistent with federal requirements, this Agreement will be construed in all respects as if any invalid, unenforceable, or inconsistent provision were eliminated, and without any effect on any other provision.

9.8 First Health, Participating State(s) and Manufacturer declare that this Agreement, including attachments, schedules and addenda, contains a total integration of all rights and obligations of the parties. There are no extrinsic conditions, collateral agreements or undertakings of any kind. In regarding this Agreement as the full and final expression of their contract, it is the express intention of the parties that any and all prior or contemporaneous agreements, promises, negotiations or representations, either oral or written, relating to the subject matter and period of time governed by this Agreement which are not expressly set forth herein are to have no force, effect, or legal consequences of any kind.

9.9 This Agreement will not be altered except by (i) an amendment in writing signed by all the parties, other than (ii) in the case of the addition of a new Participating State(s), by its execution of the New Participating State Amendment. It is acknowledged that the intent of the previous sentence is that the addition of a new Participating State(s) by amendment shall only require the consent of First Health and the approval of CMS, not Manufacturer. Manufacturer agrees that any Participating State may be added to this Agreement by amendment and that said Participating State's covered Medicaid (and other non-Medicaid programs approved by CMS in the Medicaid state plan(s)) lives shall apply to the provisions of Schedules 2 and 3 and will affect the rebates to all Participating States in accordance with Schedules 2 and 3. The New Participating State Amendment shall be executed by First Health and the new Participating State with a copy provided to Manufacturer for its records. Other than as stated herein, no individual is authorized to alter or vary the terms or make any representation or inducement relative to it, unless the alteration appears by way of a written amendment, signed by duly appointed representatives of the Participating State(s), First Health, and the Manufacturer. Any modification or amendment must be authorized by CMS.

9.10 The parties do not contemplate any circumstances under which indemnification of the other parties would arise. Nevertheless, should such circumstances arise, Manufacturer agrees to indemnify, defend and hold harmless the Participating States and First Health, their officers, agents and employees from any and all claims and losses accruing or resulting to any person, firm or corporation who may be injured or damaged by the Manufacturer in the performance of this Agreement.

9.11 Inasmuch as the State Supplemental Rebates required by this Agreement are for state Medicaid (and non-Medicaid programs approved by CMS in the Medicaid state plan(s)) program beneficiaries, it is agreed, in accordance with Medicaid Drug Rebate Program Release # I 02 for State Medicaid Directors and other applicable law, that the State Supplemental Rebates do not establish a new 'Best Price' for purposes of participating Manufacturer's CMS Agreement.

9.12 In the event that Participating State(s) require(s) prior authorization of Manufacturer's Supplemental Covered Product(s) as part of a Product Category prior authorization under Section 5.1, State Supplemental Rebates shall nevertheless be payable hereunder.

9.13 If First Health or a Participating State makes changes to a Product Category that are considered to be a material change in the structure of the supplemental rebates program, Manufacturer may be allowed to re-submit bids for the Product Category/Categories affected.

9.14 As evidence of their Agreement to the foregoing terms and conditions, the parties have signed below.

STATE OF RHODE ISLAND

13.C.1 Preventive Services

Community Health Worker Services:

Description of the services and each of the component services:

Community Health Worker (CHW) services is a preventive health service to prevent disease, disability, and other health conditions or their progression; to prolong life; and/or to promote physical and mental health and efficiency.

CHWs are frontline public health professionals who often have similar cultural beliefs, chronic health conditions, disability, or life experiences as other people in the same community. As trusted leaders, they often serve as a link between their community and needed health or social services. CHWs help to improve access to, quality of, and cultural responsiveness of service providers. These trusting relationships enable them to serve as a liaison/link/intermediary between health/social services and the community to facilitate access to services and improve the quality and cultural responsiveness of service delivery. CHWs build individual and community capacity by increasing health knowledge and self-sufficiency through a range of activities such as engagement, community education, social support and advocacy. CHWs hold a unique position within an often-rigid health care system in that they can be flexible and creative in responding to specific individual and community needs. The unique strength of CHWs is their ability to develop rapport with people and other community members due to shared culture, community residence, chronic condition, disability, language, and life experiences. They are also able to enhance the cultural and linguistic appropriateness of care and help to counteract factors such as social exclusion, poverty, and marginalization. An important role of the CHW is to advocate for the socioeconomic, environmental, and political rights of individuals and their communities. CHWs often link people to needed health information and services. By addressing the social and environmental situations that interfere with an individual or community achieving optimal health and well-being, CHWs prevent disease, disability, and other health conditions or their progression, prolong life, and promote physical and mental health and efficiency.

The following component services are covered when performed by CHWs within the scope of their practice:

- Health Promotion and Coaching for beneficiaries, including assessment and screening for health-related social needs, setting goals and creating an action plan, and providing information and/or coaching.
- Health Education and Training for groups of beneficiaries on methods and measures that have been proven effective in preventing disease, disability, and other health conditions or their progression; prolonging life; and/or promoting physical and mental health and efficiency. Health Education and Training services provided by CHWs are covered when the CHW provides the education and/or training using established training materials.

STATE OF RHODE ISLAND

- Health system navigation and resource coordination services, including helping to engage, re-engage, or ensure patient-led follow-up in primary care, routine preventive care, adherence to treatment plans, and/or self-management of chronic conditions including by assisting beneficiaries to access covered services and other relevant community resources.
- Care planning with a beneficiary's interdisciplinary care team as part of a team-based, person-centered approach to prevent disease, disability, and other health conditions, prolong life, and/or promote physical and mental health and efficiency by meeting a beneficiary's situational health needs and health-related social needs, including time-limited episodes of instability and ongoing secondary and tertiary prevention for members with chronic condition management needs.

CHW services must be recommended by licensed practitioner of the healing arts within the scope of their practice under State law.

Provider Qualifications:

Qualified CHWs are:

1. Individuals certified by the Rhode Island Certification Board as a CHW; or
2. Individuals who have a plan for working toward RI certification, to be achieved within 18 months.

Certification by the Rhode Island Certification Board includes the following requirements:

- Completion of six months or 1,000 hours of paid or volunteer work experience within the last five years;
- Completion of 50 hours of supervised work;
- Completion of 70 hours of education; and
- Submission of a portfolio, which is a collection of personal and professional activities and achievements.
