Comment: For FFY18, Rhode Island experienced an expected significant increase in children who discharged under the category of "Completion of IFSP Prior to Reaching Maximum Age for Part C" and a significant decrease in those children who discharged under the category of "Withdrawal by parent (or guardian)". In 2017, technical assistance was given to providers to clarify how to document children who discharge due to meeting IFSP outcomes prior to age three and whose parents declined an eligibility evaluation to re-determine eligibility. Providers were incorrectly stating the discharge category as "Withdrawal by parent (or guardian)" instead of "Completion of IFSP Prior to Reaching Maximum Age for Part C". Providers are now using the correct discharge reason for this situation and RI expects to see this trend continue.
