Comment: For FFY19, Rhode Island experienced an expected significant (10% change(+/-) if more than 10#) increase in children discharged under the categories "Part B eligibility not determined" , "Not eligible for Part B exit with referrals to other programs" and a significant decrease in "Withdrawal by parent (or guardian)". The state team hypothesized that the reason for this shift in data is due to the impact of the COVID-19 pandemic. After a detailed analysis of these data pre- and post-COVID-19, the majority of the shift did indeed occur between March - June 2020. In our state, many of the LEAs delayed evaluations of children to determine Part B 619 eligibility and in some cases determined that not enough information was available to determine eligibility and found the child "not-eligible." As expected, the decrease in "Withdrawal by parent (or guardian)" category is a continuation of the clarification and TA provided to the state's individual EI programs in FFY18 to ensure that programs correctly categorized children as "No longer eligible for Part C prior to reaching age three." Previously, the programs incorrectly categorized these children as "Withdrawal by parent (or guardian)."
