

Medicaid Comprehensive Accountable Entity Program
AE Incentive Pool (AEIP) Milestones Template
Annual Reporting on Outcome Metrics

Directions: This template shall be used to report the required AE outcome measure data on an annual basis. Complete one sheet for each AE contract.

Notes on Measure Definitions and Reporting Conventions

- 1. Defining an AE's attributed population for past periods:** For outcome measure reporting periods prior to the current program year, the attributed population shall be generated based on the full program attribution rules, applied to the relevant reporting period. In other words, the reported population shall be the population that would have been attributed to the AE for the relevant period, based on full program attribution rules. Note that beginning in Outcome Performance Year 3, the attributed population should be calculated with JHH members attributed to AE based on their PCP.
- 2. Reporting period:** A 12-month reporting period with a 6-month run out shall be used for the purposes of reporting final outcome measure data.
