

RItE Share: Employer Participation and Cost-Effectiveness

January 2022

I. Introduction

This report is responsive to the statutory requirement in [40-8.4-12](#) to release a monthly report on “which employer sponsored insurance plans meet the cost-effectiveness criteria for “RItE Share”. Specifically, the statute stipulates:

“The Executive Office of Health and Human Services shall dedicate staff and resources to reporting monthly as part of the requirements under § 35-17-1 5 which employer sponsored insurance plans meet the cost effectiveness criteria for RItE Share. Information in the report shall be used for screening for Medicaid enrollment to encourage Rite Share participation. By October 1, 2021, the report shall include any employers with 300 or more employees. **By January 1, 2022, the report shall include employers with 100 or more employees. The January report shall also be provided to the chairperson of the house finance committee; the chairperson of the senate finance committee; the house fiscal advisor; the senate fiscal advisor; and the state budget officer.**”

II. What is RItE Share?

Employers can elect to participate in RItE Share, the State’s premium assistance program, which is a beneficial partnership between Medicaid and employers. It allows employees to enroll in employer-sponsored insurance (ESI) at no cost to themselves. RItE Share pays for the employee’s ESI premium, co-pays, deductibles, and other cost-sharing. When an employer participates in RItE Share, it lowers the cost to the State because it no longer provides Medicaid benefits to those constituents, and it provides the employee with greater access to providers and wraparound Medicaid services. Note, however, that not all Medicaid eligible individuals may be eligible for employer-sponsored insurance, and only those working over 30 hours per work would be potentially eligible for RItE Share.

III. Employers Meeting the Reporting Requirement

During the passage of the Fiscal Year 2022 budget, the General Assembly has asked for additional reporting regarding employer participation in the RItE Share program. This additional reporting started on October 1, 2021 and required the RItE Share team to list Rhode Island employers who had an average of 300 or more employees that are were not participating in RItE Share. As of January 1, 2022, the report has been amended to display employers who have an average of 100 or more employees.

As of the end of December 2021, there are 379 employers who have an average of 100-299 employees in calendar year 2020. Of those employers, 139 are participating, while 240 are not participating. Additionally, there are 118 employers who have an average of 300 or more employees in calendar year 2020. Of those employers, 47 are participating, while 71 are currently not participating.

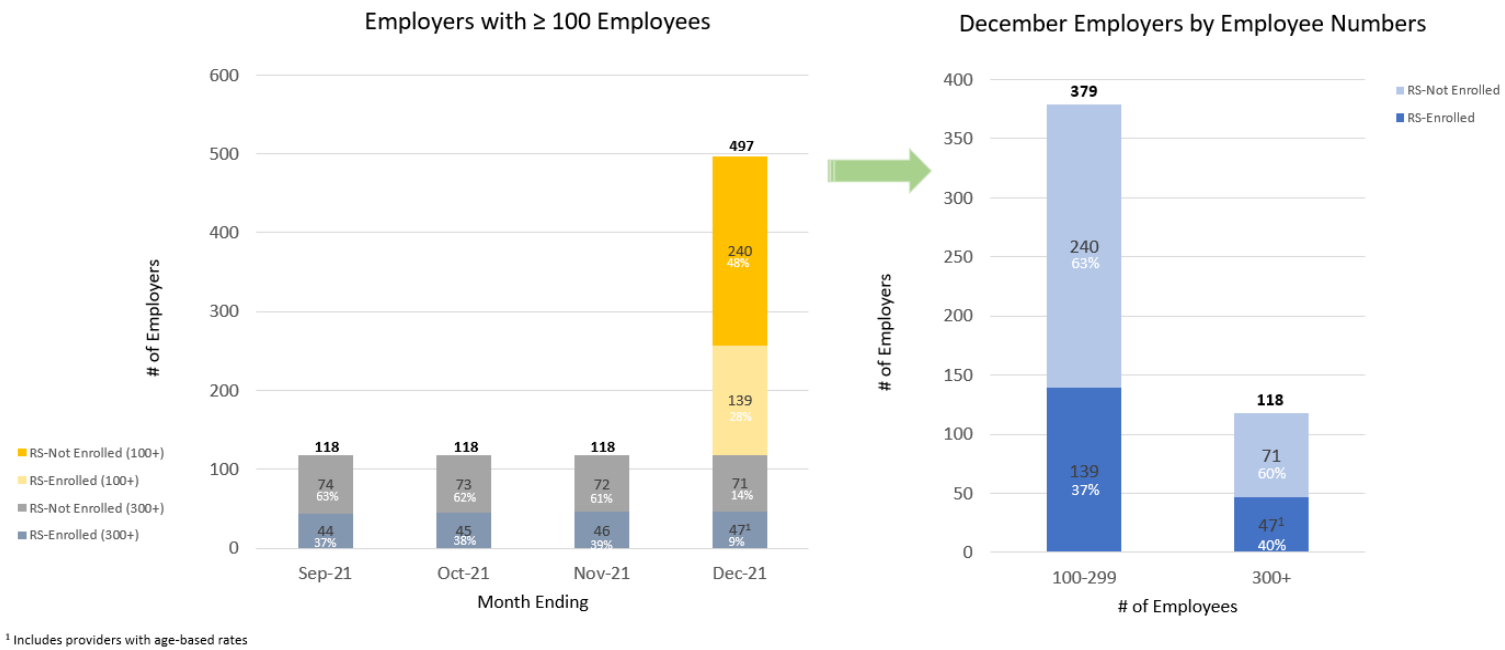

Table 1: includes all employers who meet the reporting requirement of having an average of 100 or more employees in calendar year 2020, who do not participate in RIte Share.

- Employer demographic information and average employee count is provided by the Department of Labor and Training
- Not participating in RIte Share means that the employer has not provided any ESI information to the RIte Share program to be evaluated for cost-effectiveness

Table 1: Rhode Island Employers Not Participating in RIte Share

Table 2: includes all employers who meet the reporting requirement of having an average of 100 or more employees in calendar year 2020, who do participate in RItE Share.

- Employer demographic information and average employee count is provided by the Department of Labor and Training
- Participating in RItE Share means that the employers have provided ESI information to the RItE Share program to be evaluated for cost-effectiveness, but it does not mean that all plans are cost-effective

Table 3: includes all the Rhode Island employers who have an average of 100 employees or more in calendar year 2020, if they are RItE Share Participating, and the number of cost-effective or non-cost-effective plans they offer. The employer demographic information was provided by the Department of Labor and Transportation, and the cost-effective plan information is provided by the RItE Share team from Rhode Island Bridges.

- **RS Participating:** Employers who have provided the RItE Share program with all the needed documentation to be evaluated for cost-effectiveness.
- **Cost-Effective Plan:** The health insurance premium and Medicaid wraparound services are less expensive than what the State would pay for full Medicaid coverage. Cost-effectiveness for each plan is calculated using an algorithm developed by Milliman, a reputable actuarial firm.
- **Not Cost-Effective Plan:** The health insurance premium and Medicaid wrap around services are more expensive than what the State would pay for full Medicaid coverage.

Employers can offer multiple benefit plans, which include different tiers of coverage (e.g. Individual, Individual & Spouse, Family, etc.). An employer can have both cost-effective and not cost-effective plans. For an individual to be enrolled into an employer's plan, the plan must be cost-effective and fit the member's household composition.
