

Request for Provider Information

Dear Provider,

The **21st Century Cures Act** directs state Medicaid programs to require Personal Care/Homemaker service and Home Health Care Service Providers to use an Electronic Visit Verification (EVV) system to document the services rendered in a members home.

Use of an EVV system to document Personal Care and Homemaker Services has been mandated since January 1, 2021. Effective January 1, 2023, the federal mandate requires all Home Health Care Service agencies to also utilize an EVV system. Providers are responsible for ensuring that they are in compliance with the federal requirements listed below.

Federal law requires that providers use the EVV system to document the following information:

- Type of service performed
- Individual receiving the service
- Date of the service
- Location of service delivery
- Individual providing the service
- Time the service begins and ends

In preparation for the January 1, 2023 go live date, for Home Health Care Services, Rhode Island Medicaid is requesting agencies please provide the following information to help identify providers who might require additional support in order to meet the January 1, 2023 deadline.

Please send your responses to Margaret Carpinelli at Margaret.Carpinelli@ohhs.ri.gov by **Wednesday, May 13, 2022.**
