

Equity Checklist

EOHHS intends to leverage the creation of Certified Community Behavioral Health Clinics (CCBHCs) in Rhode Island to address the historical inequities of our behavioral health System – and avoid replicating the structural inequities that already exist.

As such, applicants for infrastructure funding (both CCBHCs and DCOs) must submit an “Equity Checklist,” as a required deliverable of Phase 1.

Please use the National Culturally and Linguistically Appropriate Services (CLAS) Standards Implementation Checklist linked below.
