Off-shore or overseas data access, transfer, transmittance, communication or sharing in any manner or method is not permitted under this agreement. Access to the SSA data received by this REQUESTOR is to authorized users who need the data to perform their official duties and shall be used on a need-to-know basis.

Cloud computing or cloud storage of SSA data is not permitted without explicit written permission from SSA's Chief Information Officer. This REQUESTOR must have formal Personally Identifiable Information (PII) incident response procedures as defined under the

HIPAA and HITECH Acts. The REQUESTOR must have technology controls sufficient to meet the TSSR requirements to prevent unauthorized retrieval of SSA-provided information by computer, remote terminal, or other means.

Onsite Reviews and Audits. At its discretion, EOHHS has the option to conduct onsite security reviews or make request of the REQUESTOR data recipient to ensure adequate security controls to safeguard the information EOHHS provides to REQUESTOR. EOHHS may periodically review the REQUESTOR's system for employee access to determine if the same levels and types of access remain applicable as the date of the executed agreement.

The REQUESTOR will provide upon request to EOHHS a full audit trail of all persons who access, view, print or transfer SSA data in the format requested by EOHHS.

Access to the audit file must be restricted to authorized users with a "need to know," audit file data must be unalterable (read-only) and maintain for seven (7) years so that EOHHS may comply with its Records Retention requirements. Information in the audit file must be retrievable by an automated method and must allow EOHHS the capability to make the audit trail available to SSA upon request.

REQUESTOR acknowledges and agrees that the SSA, at its discretion, may request to include in the onsite compliance review an onsite inspection of the contractor's facility because the REQUESTOR will be using and accessing this SSA data off-site from EOHHS

PII loss is a reportable incident to EOHHS and must be reported to EOHHS within one hour but no later than twenty-four hours of a breach or a suspected breach. The term suspected breach is defined in the EOHHS Business Associate Agreement. PII means information that can be used to distinguish or trace an individual's identity, either alone or when combined with other personal or identifying information that is linked or linkable to a specific individual. 2 CFR §200.79. A PII would include a partial SSA data number along with any other personally identifying information that is shared with or accessed by an unauthorized user.

A breach is, generally, an impermissible use or disclosure under the Privacy Rule that compromises the security or privacy of the protected health information. An impermissible use or disclosure of protected health information is presumed to be a breach unless the covered entity or business associate, as applicable, demonstrates that there is a low probability that the protected health information has been compromised based on a risk assessment of at least the following factors: The nature and extent of the protected health information involved, including the types of identifiers and the likelihood of re-identification; The unauthorized person who used the protected health information or to whom the disclosure was made; Whether the protected health information was actually acquired or viewed; and The extent to which the risk to the protected health information has been mitigated.

REQUESTOR agrees to report to EOHHS a breach of SSA data or access of SSA data by an unauthorized user by telephone and e-mail the discovery of any use or disclosure of any SSA

verified data provided to REQUESTOR by EOHHS under this Agreement, including breaches of unsecured SSA data and any security incident of which it becomes aware, within one (1) hour of the breach, suspected breach, and/or security incident.

Security Incident is defined as any known successful or unsuccessful attempt by an authorized or unauthorized individual to inappropriately use, disclose, modify, access or destroy information or misuse SSA data for a purpose outside of this agreement.

Before granting access to SSA-provided information, EOHHS will verify the identities of any REQUESTOR employees who will have access to SSA-provided information.
