Kristin Sousa Medicaid Director Rhode Island Executive Office of Health and Human Services 3 West Road, Virks Building Cranston, RI 02920

RE: Corrective Action Plan (CAP) for Rhode Island Comprehensive Section 1115 Demonstration

Dear Ms. Sousa:

The Centers for Medicare & Medicaid Services (CMS) has completed its review of Rhode Island's Home and Community-Based Services (HCBS) Corrective Action Plan (CAP), which was required by the Rhode Island Comprehensive Section 1115(a) Demonstration (Project Number 11-W-00242/1) Special Terms and Conditions (STCs). CMS determined the CAP submitted on February 3, 2023, will ensure the HCBS programs operated under the demonstration are in compliance with HCBS requirements for monthly monitoring and conflictfree case management regulations at 42 CFR sections 441.301(c)(1)(vi) and 441.730(b) by no later than December 31, 2024.

## **Issue #1: Conflict of Interest**

The state is currently in violation of federal conflict of interest (COI) rules, cited above, which require the state to separate service plan development/case management providers from direct service providers, and which require that the state ensure the independence of entities performing evaluations of eligibility, needs assessments, and person-centered plan development.

## Issue #2: Case Management - Monthly Monitoring

The state is currently in violation of federal requirements for monthly monitoring, which require the state provide a service at least monthly, or if less frequently provide monthly monitoring of the participant (as documented in the service plan) to assure health and welfare. The state reports that currently there are a number of HCBS participants who are not receiving any case management on a routine basis, or limited case management and then only upon request. The majority of these individuals are non-intellectually/developmentally disabled adults with disabilities who are under age 65.

Any Medicaid program authorizing HCBS, including Rhode Island's Comprehensive Section 1115 Demonstration (11-W-00242/1), must ensure the health and welfare of the individuals served. CMS will continue to provide technical assistance and support to the state regarding the required components of the CAP. We will utilize the monthly HCBS call to assess ongoing progress and to ensure the health and welfare of Medicaid beneficiaries receiving HCBS through the demonstration program.

Your CMS points of contact, Kathleen O'Malley and Karen Walsh, are available to address any questions you may have related to this correspondence. Ms. O'Malley and Ms. Walsh can be reached at <u>Kathleen.OMalley@cms.hhs.gov</u> and <u>Karen.Walsh@cms.hhs.gov</u>.

Sincerely,

Angela Garner Director Division of System Reform Demonstrations State Demonstrations Group Ryan Shannahan Deputy Director Division of Long Term Services & Supports Disabled & Elderly Health Programs Group
