

PDPM on OBRA Assessments for States Setup

We recommend completing and submitting all in process MDS before the activating this functionality.

In order to use this functionality, you will need to:

- Enable the functionality in **Facility** menu> **MDS 3.0 Setup**.

Enable the functionality.

1. From **Facility** menu> **MDS 3.0 Setup**> on the **State PDPM Calculation on OBRA MDS** click **Update**.

State PDPM Calculation On OBRA MDS	
PDPM Calculation on OBRA MDS?:	Not Enabled
Update	

2. Select ONE of the selections:

- **Select State:** If your state requires PDPM Calculation on OBRA MDS.

Facility will enable the “State” option.

- **Select Facility:** If your state does not require the PDPM calculation on OBRA MDS but your facility will enable the PDPM calculation on OBRA MDS, NC and NQ.

Facilities could enable the “Facility” option at any point. This allows them to become familiar with the collection of PDPM data on OBRA MDS. The PDPM information is not submitted and the <STATE_PDPM_OBRA_CD> field in the XML file would be sent a “0” to indicate the state is not collecting PDPM data.

- **Select No:** If your state does not require PDPM Calculation on OBRA MDS and your facility does not want to enable this functionality.

State PDPM Calculation on OBRA MDS	
PDPM Calculation on OBRA MDS?:	Select State: If your state requires PDPM Calculation on OBRA MDS. <input checked="" type="radio"/> State
	Select Facility: If your state does not require the PDPM calculation on OBRA MDS but your facility will enable the PDPM calculation on OBRA MDS, NC and NQ. <input type="radio"/> Facility
	Select No: If your state does not require PDPM Calculation on OBRA MDS and your facility does not want to enable this functionality. <input type="radio"/> No
