- **I am trying to enroll as a Community Health Worker(CHW), what is an NPI?**

 - This occurs when filling out MCO only application
 - EFT is not needed for MCOs
 - If MCO only application is correct, continue with application
 - If MCO only application is not correct, go back to “Request Information” and select either “RI Medicaid Provider” option

- **I can't get past disclosure question 11 in application and have no outstanding balance owed to the RI EOHHS by a previous provider, what do I do?**
 - Enter “0”, with no decimals
- **We have a Board of Directors, none of them have ownership, why do I need to provide DOB and SSN for them?**
 - “Disclosure” information, such as Name, Title, DOB, and SSN are required by the federal CMS mandates, and therefore by the state for managing employees and those with control interest, so making decisions for the entity. This information is used to run checks and ensure no one making decisions is doing anything like committing fraud.
- **Why is my Lab Directors DOB and SSN needed? They are not an owner**
 - If lab directors meet the definition of managing employee, then they would be considered managing employees. If the lab directors exercise some type of operational control over the entity or oversee the day to day operations then they fit the definition of managing employee.
 - Per MPEC, managing employee means a general manager, business manager, administrator, director, or other individual who exercises operational or managerial control over, or who directly or indirectly conducts, the day-to-day operation of an institution, organization, or agency.
 - To the extent these individuals meet the definition of “managing employee” under § 455.101, they would have to be disclosed as such.
 - For Medicare enrollment purposes, if an individual is a director, the individual should be added (identified) as a director in Section 6 of the enrollment. If that individual has day-to-day management of operations of the lab, then they should be listed as a managing employee too.
