

Surgical Supplies

Coverage and Payment Policy

Surgical supplies are covered for beneficiaries who require home treatment of a specific medical condition, protection or support of a wound, surgical incision or diseased or injured body part.

Proof of Medical Necessity- A certificate of medical necessity (CMN), prescription pad, or letter, must be on file for all supplies requested by the physician and must indicate the duration of therapy. If the therapy is long term, updated proof of medical necessity must be on file every year.

If prescribed supplies exceed the stated policy allowance, prior authorization is required.
