

## ICD-10 Quiz for Providers

Below are the answers to the quiz for providers, published in the [Special ICD-10 Edition of the Provider Update](#).

1. False – ICD version is determined by date of service.
2. False – 10/1/15 is a hard cut over date.
3. True – ICD version is determined by date of service. For span date claims, please refer to the [Span Date Chart](#).
4. False – ICD versions cannot be mixed on one claim form.
5. True – The ICD indicator must match the version of the ICD diagnosis codes.
6. False – Diagnosis codes must be carried out to the highest level of specificity for that diagnosis.
7. 68,000 – There are 68,000 possible diagnosis codes. Providers will only use a subset of these codes, just as providers did not use all of the available ICD-9 codes.
8. False – Only inpatient procedure codes are changing.
9. False – All providers must make the switch to ICD-10.
